CLET TRAINING

Where experience is acknowledged!

TAE50216 - Diploma of Training Design and Development

A specialist qualification available via RPL for those with proven experience in training design and development.

The CLET TAE50216 Diploma of Training Design and Development is a specialist qualification that demands extensive experience and exposure to all facets of training design and development at the vocational level.

Often met by the higher ranks and specialist roles in police and military, this qualification is an option via RPL for anyone who has been in a role that is responsible for designing training in accordance with national training products. Further, exposure to the development of comprehensive training resources in accordance with legislative requirements is crucial for RPL for this qualification.

Whilst the CLET TAE50216 Diploma of Training Design and Development is a nationally recognised qualification it is not part of the new suite of TAE qualifications that make up the requirements for vocational training. Those are more commonly the TAE40116 Certificate IV in Training and Assessment and the TAE50116 Diploma of Vocational Education and Training - neither of which are offered by CLET at this time.

If you believe you have the required experience in the area of training design and development, and are certain that the TAE50216 Diploma of Training Design and Development is a qualification that will suit your needs, apply for RPL today and the CLET RPL Team will support you through the assessment process.
